About
Magnetics Business & Technology is an integrated media platform (magazine, website, e-newsletter) for technical professionals who use magnetic materials and technologies in their products and applications, and for professionals in the magnetics industry. The magazine is published every other month (six times yearly) in both print and digital format, the e-newsletter is published two times per month, the website is available 24x7 and updated daily.

Readers & Content
Readers are OEM engineers and technical professionals, product and application managers, and management executives who are involved in magnets, magnetic materials, magnetic products & components and electromagnetic technologies. The content includes regular editorial features, columns and departments, new products and industry news, plus an annual industry-wide resource guide to magnetics companies and industry suppliers worldwide. Major industries served include automotive, aerospace, aviation, electrical products, electronics, medical, defense, R&D, industrial & manufacturing equipment as well as manufacturers of motors, generators, transformers.

Circulation
Magnetics media serves a large audience globally including distribution to attendees at key trade shows and conferences, enabling advertisers to reach the entire magnetics industry and leading technical professionals involved in magnetics worldwide. Each issue of the magazine and e-newsletter is circulated to 20,000+ recipients via a combination of digital, mail, online download and event delivery. Certain issues of the magazine have bonus distributions reaching a total audience of 50,000+

The Advertisers
• Suppliers of magnetic materials, components & assemblies
• Suppliers of electromagnetic test equipment, design software and testing services
• Suppliers of equipment, materials, supplies and services for magnetics manufacturing
• Suppliers of equipment, materials, supplies and services for coil winding and electrical manufacturing

Honeywell and DENSO Collaborate on Electric Propulsion Systems for Urban Air Mobility

Honeywell and DENSO, the world’s second largest mobility supplier, are collaborating to propel the future of urban air mobility and other aerospace market segments by combining their expertise in magnetics. The companies have joined forces to develop electric propulsion systems for various applications, including unmanned aerial vehicles (UAVs) and other urban air mobility concepts.

The collaboration leverages Honeywell’s experience in magnetics, power electronics, and aerospace systems, while DENSO brings its strengths in automotive and industrial electronics. By combining these capabilities, the partnership aims to accelerate the integration of electric propulsion systems into urban air mobility solutions, paving the way for more sustainable and efficient transportation methods.

The joint efforts are part of a broader trend in the industry towards electrification and autonomous systems, reflecting growing interest in innovative mobility solutions that reduce emissions and enhance operational efficiency. With this partnership, Honeywell and DENSO are positioning themselves at the forefront of urban air mobility innovation, aiming to shape the future of sustainable air transportation.

For more information on Honeywell and DENSO’s collaboration and their contributions to the urban air mobility market, please visit www.MagneticsMag.com or contact the company representatives directly for the latest updates and details.

Print Advertising Specifications & FTP Site Information

Complete ads accepted in PDF, TIFF or EPS formats only. No Word documents are accepted. All ads must be converted to CMYK and at 300 dpi resolution. All fonts and graphics must be included with 300 dpi (minimum) versions of EPS or TIFF, and CMYK images. You may e-mail small ad files (less than 5 mgs) to Scott Webster, Director of Content. Please see editorial calendar for materials deadline. A late fee will be incurred if materials are not received by deadline date.

Sending Files Electronically
For files less than 5 mgs, send file via e-mail to Scott Webster, Director of Content, at ScottW@WebcomCommunications.com. For files over 5 mgs, file can be uploaded to Webcom's FTP site using a compatible FTP software program.

FTP Site Instructions
1) Please e-mail Ross Webster, Director of Operations & Customer Service, at RossW@WebcomCommunications.com, to indicate you are uploading a file. Include your company name, the file name, Magnetics magazine, and for which issue the advertisement is scheduled.

2) With an ftp Client
host name: www.webcomcommunications.com
username: ads
password: Webcom21

3) Through Windows Explorer
ftp://ads@www.webcomcommunications.com
username: ads
password: Webcom21

Send production materials to:
